REMARKS

This application covers 4,803.86 acres of ground with a decreed water right in the Bartlett Decree under Proofs No. 00101, 00120-122 inclusive. Proofs No. 00101, 00120-122 inclusive are broken down as follows: 2,717.05 acres of harvest, 496.95 acres of meadow pasture and 1,589.86 acres of diversified pasture.

This application covers 6,840 acres of ground which is an additional acreage of 2,036 acres to the amount of ground given a water right in the Bartlett Decree under Proofs No. 00101, 00120-122 inclusive.

The application up grades the water right for meadow pasture and diversified pasture of Proofs No. 00101, 00120-122 inclusive to 3 acre feet thus making it possible to develop this ground to a harvest type of culture. It also increases the acreage irrigated under Proof No. 00101, 00120-122 inclusive by 2,036 acres which will be a harvest type of culture requiring 3 acre feet per acre.

Ground under Proof No. 00101, 00120-122 inclusive is decreed a water right in the amount of 10,089 acre feet. This application is for an additional 10,431 acre feet which allows the total acreage of 6,840 acres covered by the application to be developed into a harvest type culture.

The application is for an irrigation flow for the entire 6,840 acres covered by the application of 6c.f.s. per 100 acres of ground to be irrigated. Because of the type of ground and the characteristic flow of the Humboldt River and its tributaries the most economical irrigation head for good husbandry is 6c.f.s. per 100 acres.

The intent of this application is to appropriate 10,431 of the surplus waters of the Humboldt River. Surplus water being considered the water above the 100% decreed flow of all the prior decreed and permitted rights on the Humboldt River system to this application.

ATTACHMENT
REMARKS

This application covers 2,675.41 acres of ground with a decreed water right in the Bartlett Decree under Proof No. 00102. Proof No. 00102 is broken down as follows: 1,150.30 acres of harvest, 686.99 acres of meadow pasture and 838.12 acres of diversified pasture.

This application covers 4,600 acres of ground which is an additional acreage of 1,925 acres to the amount of ground given a water right in the Bartlett Decree under Proof No. 00102.

The application upgrades the water right for meadow pasture and diversified pasture of Proof No. 00102 to 3 a.f. thus making it possible to develop this ground to a harvest type of culture. It also increases the acreage irrigated under Proof No. 00102 by 1,925 acres which will be a harvest type of culture requiring 3 a.f. per acre.

Ground under Proof No. 00102 is decreed a water right in the amount of 5,110 a.f.. This application is for an additional 3,692 a.f. which allows the total acreage of 4,600 acres covered by the application to be developed into a harvest type of culture.

The application is for an irrigation flow for the entire 4,600 acres covered by the application of 6 c.f.s. per 100 acres of ground to be irrigated. Because of the type of ground and the characteristic flow of the Humboldt River and its tributaries the most economical irrigation head for good husbandry is 6 c.f.s. per 100 acres.

The intent of this application is to appropriate 3,692 acre feet of the surplus waters of the Humboldt River. Surplus water being considered the water above the 100% decreed flow of all the prior decreed and permitted rights on the Humboldt River system to this application.

**APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA**

Date of filing in State Engineer's Office JUL 17 1969

Returned to applicant for correction OCT 29 1969

Corrected application filed _____

Map filed _____

The applicant N-B Ranches, Inc.
of P. O. Box 117, County of Orovada,
State of Nevada 89425, hereby make application for permission to appropriate the public
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-
tion; if a copartnership or association, give names of members.) Oct. 30, 1967 - Nevada

1. The source of the proposed appropriation is Humboldt River
Name of stream, lake or other source.
2. The amount of water applied for is 276 c.f.s. for a total of 8692 a.f. second-feet
One second-foot equals 448.83 gals. per min.
(a) If stored in reservoir give number of acre-feet _____ acre-feet
3. The water to be used for Irrigation and domestic
Irrigation, power, mining, manufacturing, domestic, or other use.
4. If use is for:
 - (a) Irrigation (state number of acres to be irrigated) 4,600 acres
 - (b) Stockwater (state number and kinds of animals to be watered) _____
 - (c) Other use (describe fully under "No. 11. Remarks") _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____
5. The water is to be diverted from its source at the following point: NW $\frac{1}{4}$ NW $\frac{1}{4}$: Sec. 18, T. 36N.,
R. 40 E., M.D.B. & M. Proof No. 00102
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.
6. Place of use See attachment
Describe by legal subdivision, if on unsurveyed land it should be so stated.
7. Use will begin about March 15 and end about Sept. 15, of each year.
Month Month
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Diversion will be at one point as shown on Proof No. 00102. Through private irrigation system and series of pumping stations, water will be conveyed to place of use.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works..... Over \$10,000
10. Estimated time required to construct works..... 7 years
11. Remarks..... See attachment
